In a flamenco *zambomba*, Christmas carols are adapted to the different *palos*, or styles, of flamenco, such as *bulerías*, *tangos*, *rumbas*... The staging, art and passion of the gypsy families, who share their common feelings for the Christmas festivities,

are a reflection of an ancestral tradition transformed into joy with the singing and dancing. This is the origin of the flamenco *zambomba*, of families and neighbours getting together in the working-class neighbourhoods to celebrate their love for the baby Jesus.
