2018 IV LOCA AWARD FOR BEST ACTRESS

The neurosis of love, the search for pleasure or leadership are the main themes of this theatrical blend that reveals a world this is sick, destroyed and without morals.

Tradition and the avant garde result in a flamenco drum and bass buleria, elemental seguirillas or a degrading improvisation to the rhythm of a solea.

Group consisting of vocals, violin, percussion and dance that addresses with force and honesty the margins of the precipice of flamenco.
