What is stronger: magic or laughter? The celebrated Magician Kayto, a third-generation clown and winner of multiple awards, combines these two arts in an incomparable show. Illusions, unexplainable tricks and a great deal of humour are the essential elements of an amazing show in which the audience is a real active protagonist. An incomparable magical experience in which nothing is what it seems to be, and everything that is impossible seems possible.
Kayto has been performing since the age of 6. His parents were clowns, an art which he learned first-hand as a child. At the age of 20 he began to learn the art of magic and to incorporate it in his shows. Kayto has the soul of a magician and the heart of a clown. He has performed all over the world and has won, amongst other awards, the Warner Bros Prize for Magic.
