LAS AVENTURAS DE PENEQUE EL VALIENTE

[The adventures of Peneque The Brave]

55 min (w/out intermission). Puppets and actors theatre. Family audiences

www.peneque.com

King Simpatías entrusts the custody of the treasure of the Museum of Malaga to his friend Bolo el Sabio. Two wicked characters, the witch Pelos Blancos and Filibut el Malo, take advantage of a moment of carelessness on the part of Bolo and throw him out of the palace. Peneque el Valiente will have to recover the treasure with the help of the children.

In 1959, Miguel Pino combined a beautiful story and puppets in the production of *Las aventuras de Peneque el Valiente* [The Adventures of Peneque the Brave]. A pioneer of modern puppet theatre, he took these cardboard and felt characters from town squares to large theatres. One generation after another, the children in the audience shout "Peneque Peneque, where are you?". This year his magic will come back with Miguel Pino's children, who have inherited their father's art.
