*Playtime* merges theatre of objects, a clown, physical and visual theatre, music and humour to create magic, construed as a visual poem that is surrealistic, fun and amazing.

Oh...and all of this without saying a single word...it's *Playtime!!!*

The actor, magician and multidisciplinary creator Nacho Diago has participated in the most prestigious Festivals of Magic in Spain. In 2005 he won first prize and was declared national champion at the 27th National Congress of Magic. His magic is based on a line of research in which an ordinary object becomes something magical and unexpected. He has a degree in Drama from the School of Dramatic Arts [E.S.A.D.] of Valencia.
