Doña Margarita is a teacher. Authoritarian, ecological, narcissist, violent, sensitive, affectionate, and many other things, she tries to initiate us in the world of adults. Hence, the world of computer literacy, who is who, or to acknowledge that we are nothing forms part of the baggage that Ms Doña Margarita wants to transmit to us so we are prepared for "modern life".

La señorita doña Margarita is a text with which it is easy to establish a dialogue on the current situation in Spain, to verify the similarities and differences of the system exposed in comparison with our daily reality. So after every performance, Petra Martínez and Juan Margallo open a dialogue with the audience, share their theatrical experience, the anecdotes of their career and discuss the news regarding current affairs.
