Insólitas situaciones en las que nunca bailarías tango is a very theatrical, contemporary tango show with funny touches and amusing moments. This time the dance company R.E.A. Danza gives another twist to its Tango dancing. They take us to unbelievable situations in which we would never have thought we'd end up dancing tango. Although these are situations in which dancing tango is completely out of context, tango inexplicably appears to give that moment an unexpected twist. Three everyday situations, with their corresponding vicissitudes, start unfolding as they usually do but end up in the form of tango.
