Hey, listen. What? Could you please repeat? Antonio Zafra is an actor from Malaga affected by post-lingual deafness. Post lingual what? He is deaf, and since he can't hear, he doesn't stop talking, and since he is an actor, he has become a monologist. His monologue is about deafness and his experience as a deaf person. Listen: there is none so deaf as those who will not hear. This is a show about these myths for both those who can hear and those who are deaf.
